MONOLOCK®

In order to offer a wider range of applications and uses, GIVI has introduced MonoLock®. Following the same philosophy that defines the Monokey® fitting system; this second solution is mostly made for lighter vehicles, such as scooters and maxi-scooters. Even with limitations of maximum load, this system of fitting combines performances comparable to those of the Monokey® system with components boasting lighter and far smaller dimensional restrictions. Because of its natural compatibility with different kinds of motorcycles, it is appreciated by the most important brands of motorcycle producers, who have adopted it for their original accessories. As well as for Monokey®, the opening of the case top shell and the detachment of the case from the plate are operated with one key only.

MONOKEY®

Monokey®, patented by GIVI, is the most widespread fitting system for hard cases and side cases. Simple to use, it allows operation with only one key both the opening of the case top and the detachment of the case from the fitting plate. All the Monokey® products combine the best characteristics of mechanical resistance and rigidity of the fitting, with features using compact and light components. The even distribution of the load on the plate surface is guaranteed by the three fitting points. The damping of oscillating and vibration and the contact between the bottom shell and the plate are assured by four spacers made of elastic material, which is particularly resistant to extreme weather and temperature variation. Thanks to these solutions a high level of reliability of the fitting is guaranteed.

FIXED SYSTEM

Underbone street bike is the most common motorcycle type widely used in many Asian cities. Basic, yet slim rack system mounted on the motorcycle - great for everyday ride in heavy traffic congestion. Its compact locking and racking system combination - better fit the size and weight of the underbone street bike.

TANKLOCK TANK BAG AND TAILBAG

The tank bags and tailbags by GIVI are the closest ally of any keen rider. They are spacious, sophisticated, extremely easy to access and compatible with almost every motorcycle model on the market. Available in different models and with different types of attachments, they adapt perfectly to the rider's individual needs, with straps, magnetic closures, water-resistant material and Tanklocks. Subtle and practical, GIVI's tank bags and tailbags are designed to make your riding experience as relaxing and comfortable as possible.

Only for professionals, don't try at home!
 Mutual admiration and the companionship have supported their passion and made entrepreneurship, for a little amount of time, the "happy" thing they do instead of "a job".
 They are happy to share their adventures with the GIVI community.
 *More than 100 stories on the road.
